**Cats were terribly ill:**

Unfortunately, the cats were too ill to go under anesthetic and be spayed/neutered. They were suffering from upper respiratory symptoms, fleas, and were malnourished. Bonnie and her tech gave them antibiotic shots, vitamin shots, food and water at the clinic that evening, and throughout the next two days. I made a call to the SPCA to find out if they would be able to take in the cats as they could not be returned into this situation where obviously the folks could not afford to take care of the animals.

(Pictures of the cats at KCAAP, getting checked in)

**This is Wendy, who recovered from her illness, and was adopted in August.  
She is doing great in her new home.**

**Dirk went to a foster home with Kit Tidwell of Treasured Friends. Thank you, Kit!**

**Oregon is still waiting for his forever home. He is very sweet and will jump on your shoulders and sometimes bite your hair (nicely). He can also jump into your arms from the floor.**
